

# Joanna Raniecka

Self-driven software developer experienced in building complex, scalable systems. Passionate about new technologies and dedicated to creating intuitive, user-friendly software solutions.

## EXPERIENCE

**PacketFront Software** | 07.2023 - present  
Software Developer

- Manage the graphical user interface (GUI) for the network orchestration system as the sole developer in the team
- Implement new features and resolve bugs using JavaScript, jQuery, and Java (Vert.x) for both front-end and back-end.
- Create and maintain dynamic web page templates using FreeMarker Template Language (FTL)
- Refactor and optimize legacy code to improve performance, maintainability, and user experience
- Develop and integrate API methods using JSON-RPC to enable communication between the front-end and core module.
- Create and maintain automated end-to-end (e2e) tests in the Robot Framework to ensure reliable and high-quality GUI functionality
- Drive the modernization of the system's appearance, enhancing visual appeal and usability

**EPAM** | 01.2022 – 06.2023  
Mid Frontend Developer

- Developed e-commerce platforms using Angular 11 and SAP Spartacus and internal library
- Implemented and managed application state using NgRx for robust and efficient state management
- Integrated external payment methods to facilitate secure and seamless transactions
- Integrated REST APIs to enable communication between front-end and back-end services
- Configured and optimized Google Analytics events to track user interactions and drive data-driven decisions
- Worked within the SCRUM framework to deliver iterative and high-quality software solutions

**Centralny Ośrodek Informatyki** | 01.2020 – 12.2021  
Intern / Junior Frontend Developer / Mid Frontend Developer

- Developed new online forms for citizens using Angular 5 and 11, ensuring user-friendly, responsive, and accessible (WCAG) design
- Contributed to the development, design, and analysis of the system for officials, collaborating on system architecture and functionality to meet administrative needs
- Created reusable UI components to facilitate faster development and maintain consistency across the application

**Academic Partner Foundation** | 07.2018 - 01. 2019  
Design and Development Coordinator

- Worked closely with designers and developers to translate creative concepts into functional, user-friendly digital products
- Wrote design specifications for developers and reviewed final web pages to ensure they matched mockups with pixel-perfect quality

## SKILLS

### Programming languages

JavaScript, TypeScript, HTML, CSS, Sass, Java

### Libraries & Frameworks

Angular, RxJs, NgRx, React, jQuery, Bootstrap, Angular Material, SAP Spartacus, Robot Framework

### Tools & Platforms

Git, Github, Gitlab, Gerrit, Swagger, Docker, Jenkins, DevTools, Adobe Illustrator, Adobe XD, Figma

## EDUCATION

### Warsaw University of Technology

Master, Computer Science  
2018 - 2021

Bachelor, Biomedical Engineering  
2014 - 2018

## LANGUAGES

English Fluent  
Polish Native

## HOBBIES

Photography, graphics, traveling

I agree to the processing of personal data provided in this document for realizing the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation)
